Dear Mr. Quang Nguyen,

On behalf of the Organizing Committee of the 38th International Symposium on Superconductivity (ISS2025), I am pleased to extend my warm invitation for you to participate in the symposium, which will be held from December 2nd to 4th, 2025, at Dejima Messe Nagasaki in Nagasaki, Japan.

Your distinguished work in the field of superconducting materials is highly regarded, and we sincerely hope you will be able to join us. Your presence would greatly enrich the academic discussions and collaborative spirit of the symposium.

Please note that the symposium will begin with early morning sessions on December 2nd. Therefore, we kindly recommend that international participants arrive in Nagasaki by December 1st to ensure a smooth start. Additionally, as the final day's program is scheduled to conclude around 6:00 PM on December 4th, we suggest planning your return travel for the following day, December 5th.

Please also note that this invitation does not imply any financial obligation on the part of the symposium or its Organizing Committee regarding your attendance.

We look forward to welcoming you to Nagasaki and to your valuable participation in ISS2025.

Sincerely yours,

Emeritus Professor Atsutaka Maeda,

General Chair, 38th International Symposium on Superconductivity (ISS2025)
